SIR JOHN HAWKINS' HISTORY OF MUSIC, with 200 Woodcuts and Musical Illustrations, is being Re-printed by J. A. NOVELLO. For particulars and specimen, see page 374, Vol. IV. of the *Musical Times*.

A Modulating Dictionary, consisting of 552 Modulations, by three intermediate chords from and into the twenty-four major and minor keys; with the return Modulations. Arranged, for immediate reference, by CLEVELAND WIGAN.—Price 4s.

FROM THE PREFACE.

"Although this little work is chiefly addressed to young composers and organists, there are occasions when more experienced musicians may perhaps find it of some utility. Extemporaneous 'interludes,' for example, demand considerable self-possession, and the most skilful organist is liable, from indisposition and other causes, to accidents which could hardly occur if the means were before his eyes of instant extrication from any key to which he had wandered."

Joule's Directorium Chori Anglicanum, Second Edition, price 1s., in cloth 1s. 6d.—"The most complete Choral Service book that has yet appeared." Dedicated by permission to the Lord Bishop of Manchester. For highly favourable reviews see "Christian Remembrancer," "Theologian," "Parish Choir," &c. &c. London: J. A. Novello. A few copies of the quarto edition, price 15s., still on hand.

Oxford University Psalm Book.—A Manual of Psalm Tunes for the use of the University of Oxford, selected, arranged, and composed by S. ELVEY, Mus. Doc., Organist of the University Church, and of New and St. John's Colleges. Price 12s.

* * Although this book was compiled more especially with reference to the University Church, it will be found equally useful for other churches.

Leeds Choral Service, 2s.

The Choral Service, as used in the Parish Church of Leeds, at the Daily Prayer and Litany; consisting of the Chants, Versicles and Responses, arranged for the Priest and Choir. Compiled by JAMES HILL, revised by ROBERT S. BURTON and V. NOVELLO.

Preface to the Fourth Edition.

The First Edition of the Choral Service was originally published for the purpose of being used at the Consecration of the Parish Church of Leeds, where it has since been continued without intermission. It has also been introduced into the Churches of many other Parishes.

The demand for this work has already caused the sale of Three Editions; and in preparing a Fourth Edition for the press, the work has been carefully revised, and several musical errors, especially in the Litany, which were in the second and third Editions, have been properly corrected.

London: J. A. Novello, 69, Dean-street, Soho, & 24, Poultry.
And at 389, Broadway, New York.

J. ALFRED NOVELLO has just imported a limited number of copies of the Second Edition of

Marx's Theory and Practice of Musical COMPOSITION. Translated into English from the Third German Edition, and Edited by HERMAN S. SARONI. Price, cloth boards, 15s.—The Second Edition of the English translation of this celebrated work is now ready. Since the publication of the first edition it has been subjected to the most rigid examination by several Professors of Music for the detection of those typographical errors, which are so likely to occur in a work of this character, especially in the Examples in Harmony. It is believed that no work on Harmony ever issued, has been more free from typographical errors than this second edition of the Translation of Marx.

Æolian Pitch-Pipes, all Notes in the Octave—Diatonic and Chromatic Sets—Sets for the Violin, Guitar, and Harp.

THE ÆOLIAN MUTE, (a combination of the "A" Æolian Pitch-Pipe and the Mute) for the Violin, is more easily applied and detached than the old Mute.

PATENT CHROMATIC TUNING FORKS, sounding all the Tones and Semitones of the Octave; a perfect guide for tuning Pianofortes, &c., and for Leaders of Choirs, &c.

BLUED-STEEL SCOSTENENTE TUNING FORKS, superior to all others in tone and finish. Sold by all Music-sellers. Manufactured by EDWARD GREAVES, 56, South-street, Sheffield.

The Patent Portable Metronome, (Registered according to Act of Parliament, 6 & 7 Vict: c. 65.) is a very complete and perfect instrument for measuring time in music. It is the size and form of a small watch, and may be carried in the waistcoat pocket, being similar to a spring measuring tape, on one side of which are marked the numbers of vibrations in one minute, (as in Maelzel's Metronome) and on the other the Italian musical terms in general use. From its moderate price, small dimensions, and practical usefulness, it is adapted for all classes of musicians and singers. Price, with case and suspender, Brass, 5s.; German Silver, 6s.; Pearl, 7s.; Shell, 8s.; Electro-plated, 8s.; Gilt, 10s. each.

Dr. Mainzer's Musical Works.—Revised Edition, prices reduced.
